

WETLAND WARRIORS

➤ A Free SCIENCE WEEK initiative ➤

Townsville Schools – Get Involved!

Join a hands-on science and leadership opportunity exploring the vital role of local saltmarshes and mangroves.

What's involved:

- Join scientists in hands-on saltmarsh surveys
- Develop a Local Action Project
- Selected students will attend the Local Action Plan Workshop (Oct 10–11) to present their projects to peers and decision-makers

This is more than just a field trip – it's a chance to connect science, sustainability, and student voice, agency and leadership in a meaningful, on-ground program

EVENT DATES

August 15th - Friday

August 18th - Monday

Eligibility

Students aged 10 to 17 from
TOWNSVILLE schools

**Applications close June
27th, 2025 at 11:59PM**
